

**Double layer rollback hood with glass viewing window & integrated temperature gauge**

- Double layered stainless steel (interior 304/interior 430)
- Excellent durability and heat retention
- Monitor heat using temperature gauge and continue to cook without the need to lift the lid

**Elevated Multifunction Cooking Rack**

- Second cooking area for indirect heat
- Use as a warming area
- Durable chrome wire
- Removable for easy cleaning

**Porcelain enameled cast iron hotplate and grills**

- Rust resistant
- Easy to clean
- Great heat retention
- Extremely durable
- Hotplate can be flipped over for 50/50 hotplate and grill

**Easy to clean, front access, full width drip tray**

- Accessed via the front
- Raised edge around the hotplate = no overflow
- Opening on the hotplate releases grease onto a drip tray the entire width of the barbecue

**Integrated shelf 4kW cast iron side burner (freestanding barbecues)**

- Powerful 4kW for sauteed veggies, sauces, onions etc. — create the whole meal on the barbecue!
- Cast iron burner and trivet
- Brass burner cap disperses flame
- Stainless steel body
- Individual Quartz One Start Ignition
- When not using, lid can be folded down flush for a right hand table

**Quartz One Start Ignition on all burners**

The ignition system works to start your barbecue at the first push of the button each time you use it. No more endless clicking when trying to start your barbecue!

**The heat and power you need.**

**4kW cast iron burners with stainless steel vaporizers**

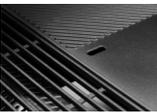

- Cast iron burners and stainless steel vaporizers offer one of the most durable, flexible and efficient cooking systems available
- Cast iron heats quickly, maintains consistency and is built to last
- 4kW of power per burner allowing you to be in control of how you cook including being able to lower the heat
- Stainless steel vaporizers efficiently disperse flames across the grill surface
- Meat juices are vaporized before they reach the burners, reducing flare ups

**Fast Five**

On this page, you will see the key features of the 1600 range which you can cover in approximately 5 minutes for dealer training.

For more information on these features plus other features on why Beefeater is better, can refer to the key features glossary on page 2.

|  |                          | What it is   | Why we're better  |
|--|--------------------------|--|---|
|    | <b>Burners</b>           | Heavy duty 4kW/hr. cast iron burners   | The cast iron burners on BeefEater barbecues each offer 4kW/hr. continuous power. These individually controlled burners retain their heat and are rust and chip resistant. They can be removed for each cleaning. You have the flexibility of controlling the barbecue to suit your needs by being able to turn down the power when you need to.  |
|    | <b>Control Panel</b>     | Individual zinc, cast iron control dials with clear heat level graphics                | The individual controls (including the side burner) are durable and easy to clean, with clear graphics. You can use these individual dials to control the barbecue your way e.g. searing meat in the middle.  |
|    | <b>Firebox</b>           | Fully seam welded vitreous enamel fire box   | Built to withstand high heat over time the burner box is built of high grade enamel. Fully seam welded throughout, moisture & grease don't get into the gaps, creating rust.  |
|    | <b>Grease Management</b> | A hotplate with raised edges & front access, full width grease catchment tray          | Designed for an easy clean-up, the hotplate has raised sides preventing grease & oil overspilling, drawing it instead to the plate opening & into the front access catchment tray.  |
|    | <b>Plates and Grills</b> | Porcelain enameled cast iron hotplate and grills                                       | Cook up a feast for many for years to come on our spacious & durable cooktop. Made from cast iron, the cooking surface doesn't chip and they are rust resistant, whilst heating quickly and evenly, holding its warmth for the best cooking experience.   |
|    | <b>Ignition System</b>   | Quartz One Start Ignition<br><i>Tip: Look for the lightning bolt symbol</i>            | The ignition system works to start your barbecue at the first push of the button each time you use it. <ul style="list-style-type: none"> <li>• During ignition, a hammer hits the quartz creating a current that runs along a wire to the spark plug</li> <li>• A spark creates the pilot flame. The flame thrower ignition then shoots this flame approximately 10cm along the burner</li> <li>• When the ignition knob is released the flame retracts back as the pilot flame shuts off</li> </ul> |
|   | <b>Roasting Hood</b>     | Double layer rollback hood with glass viewing window & temperature gauge               | Keep an eye on what's cooking without lifting the lid. Maintain heat using the built in temperature gauge or peer through the full width glass viewing window to check how your food is doing.  |
|  | <b>Side burner</b>       | Integrated shelf 4kW cast iron Side Burner   | Continue your outdoor cooking experience by utilising the 4kW/hr. side burner so that you can cook all the elements of your entire meal on the barbecue. Unlike some competitors, our side burner lid sits flush within the side shelf so you have extra space if you are not using the side burner.  |
|  | <b>Trolley</b>           | Power Coated Trolley with spacious side shelves, back bump & two door storage cabinet  | A practical BBQ trolley with ample storage for gas cylinders, BBQ tools and spacious side shelves. The bump at the back stops you pushing the BBQ fully against the wall, providing extra ventilation & preventing damage to the hood when its rolled back.   |
|  | <b>Vaporizers</b>        | 4 x vaporizers in 5 burner<br>3 x vaporizers in 4 burner<br>3 x vaporizers in 3 burner | The stainless steel vaporizers disperse the flame across the grill surface for even heat distribution. Juices from meat are vaporized before they hit the burners so it reduces flare ups.  |
|  | <b>Warranty</b>          | 2 years + an additional 3 on the fire box  | Beefeater is built to last but in case you need it, we offer 2 years warranty plus an additional 3 years on the fire box only.  |
